CYPRUS AI VISION 2030

Strategic AI Hub

Transform Cyprus into a balanced AI hub within the EU, leveraging existing strengths while addressing infrastructure constraints

Economic Impact

Create 5,000+ high-skilled AI positions, following successful models from Estonia, Singapore, and Malta

Strategic Approach

Develop selective domestic AI capabilities where strategically essential, leverage existing computational assets, focus on high-value specialization, and maintain meaningful participation in AI value chains

Chief Scientist

FOUNDATION

"AI is democratizing access to knowledge, insight, and in many cases expertise disrupting the traditional learning curve and creating new opportunities, and risks we have not considered preparing for before." **Demetris Skourides, Chief Scientist of Republic of Cyprus and Chairman of AI National Taskforce**

"AI is democratizing access to specialized knowledge and expertise. In the past, gaining proficiency in a particular field often required expensive education or mentorship from industry insiders." **Mark Pittman** Forbes Technology Council

Democratized Generative AI

Users

Business users will have ubiquitous access to knowledge and technical skills that wasn't possible before, heralding a new wave of productivity.

Technology

The confluence of cloud and open source will make generative AI more democratized in the future beyond the purview of large technology giants.

Governance

This unfettered access to knowledge and skills must be underpinned by a strong focus on governance and responsible AI practices.

New Regulations and Self-Governance

Workforce Productivity

Every Business Will Be an AI Business

HYPE CYCLE FOR GENERATIVE AI, 2025

AI BEST PRACTICES IN GOVERNMENT

Ethical Guidelines for AI

Implementing clear ethical guidelines ensures transparency and fairness in how AI is used within government services.

Data Privacy and Security

Protecting citizens' data is critical; robust security measures prevent misuse or breaches of sensitive information.

Staff Training and Innovation

Investing in continuous training to raise awareness of AI helps public sector with AI advancements and encourage responsible innovation and oversight.
